

Budbrooke Primary School

The Sports Premium

Spring/ Summer 2020

This report outlines how our school has planned to spend the Sports Premium allocation in 2019/20. It also outlines our key principles and reasons for spending the Sports Premium in the way that we do.

Our Principles and Objectives

The Sports Premium was introduced to fund improvements to the provision of PE and sport, for the benefit of primary-aged pupils so that they develop healthy lifestyles. It is allocated to schools to work with all pupils.

School are free to spend the Sports Premium as they see fit, however our approach and vision for our pupils is to ensure that all are offered **'rich opportunities and memorable experiences'** and that those from poorer socio-economic backgrounds do not suffer barriers which hamper their progress and attainment.

Our decisions on how best to use the 'Sports Premium' are based on the findings of high quality research and publications, as well as OFSTED's own 'best practice' guides. These have supported our decision on expenditure over the best and most effective use of our Sport Premium Funding.

We believe that:

- All of our children should and will benefit from the teaching and learning opportunities that Sport Premium funding provides.
- Appropriate provision is made for all pupils belonging to vulnerable groups, including those who are from socially and economically disadvantaged groups.
- Sport premium spending should be allocated following a needs analysis which identifies children with priority needs.
- Our Sport Premium funding should be spent in a wide and imaginative variety of ways, so as to benefit the wide variety of interests and needs of our children
- Our Sports Premium funding should be spent according to 'best value principles' and related to activities which research suggests will make the very best use of the finances available
- Whilst there are some 'quick wins', there is a need to also take a 'long term view' to stop achievement gaps from widening. Some of our long term objectives will take more than an academic year to come to fruition.

Our Pupil Premium Funding

Total number of pupils on role: 220
 Total amount of Pupil Premium Grant: £17,920

Our Targeted Areas

In order to improve the progress and outcomes for Sports Premium pupils we aim to:

- The engagement of all pupils in regular physical activity (Chief Medical Officer recommends children engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school)
 - **The profile of PE and sport is raised across the school as a tool for whole school improvement**
 - Increased confidence, knowledge and skills of all staff in teaching PE and sport
 - **Broader experience of a range of sports and activities offered to all pupils**
 - Increased participation in competitive sport

The aim will be to encourage the children to enjoy running and continue being active at school and at home.

NB: Whilst many of our highly focussed short term initiatives have shown good success, a number of our initiatives are designed to be 'cumulative in their impact' i.e. we will show significant success over time and across many aspects of the child's life.

Current Impact Statement - Spring/Summer 2020

The Sports Premium money has supported the school's aims to achieve the Sainsbury's School Games mark for commitment to school sport and competitive games. Budbrooke has been awarded the Gold Award.

This achievement is in recognition of all the opportunities all the children have to play and learn new sports within PE lessons and extra-curricular activities, as well as to compete in many of the School Games competitions. The award also recognises how the children display the School Games values of **Honesty, Self Belief, Determination, Teamwork, Passion** and **Respect**. The children have the chance to organise, 'lead' and promote their own competitions within school allowing different year groups and abilities to join in and enjoy their sport.

The improved equipment and extra-curricular activities on offer has seen more children become involved in sport and enjoy representing the school in competitive games.

Successes this year have included:

92 % of children say they are fit and active (2020 Pupil Voice).

More children have been inspired to try a new sport and to be active.

90% Children enjoy PE sports on offer at Budbrooke (2020 Pupil Voice)

86% Children have developed skills for new sports at Budbrooke (2020 Pupil Voice).

More children are taking part in after school clubs.

72% of children have been to at least 1 extra-curricular club (2020 Pupil Voice & Sports Club registers)

21 out of 30 SEND children have attended extra-curricular sports clubs.

87% of children are proud of their personal sporting achievements.

Budbrooke had 6 School Sports Ambassadors who delivered sports activities for the whole school. They also organised a Change 4 Life Club for the less active members of the school and helped lead a Change 4 Life festival at Budbrooke which was attended by 5 schools.

A pupil questionnaire saw that fitness levels were generally higher in 2020 than 2019 with a higher uptake in extra-curricular activities.

Girls participation in sport has also been higher than in previous years with football, cross country and athletics being popular.

There have been more Play Leaders (Year 4 &5) who have been trained to deliver sports activities to the younger children.

This has included organising active sports sessions for nursery and pre-school in the community.
